

Making mobile power for fleet and service vehicles easy!

Professional Mobile Power Install Kits for your fleet and service vehicles! Take the guesswork out of installing your THOR power inverter. Pre-assembled, all-in-one box, THOR mobile power install kits give you all of the essential components for a complete and independent AC power system for your fleet or service vehicle.

THOR Manufacturing Mobile Power Install Kits will reduce unnecessary inventory, vendors and more importantly they remove the guesswork so that you can install your inverter and be up and running quickly!

The idea behind this kit is simple.

Save time and money, receive everything in one box.

- THOR Power Inverter
- 15 ft of proper size DC cable with crimped lugs
- THOR Fuse with fuse holder – for easy installation/ mounting
- THOR Battery Isolator
- TH-IBS Inverter Bypass Switch for ignition control installation
- TH-EXT 15 ft of AC cable with 120 volt AC outdoor outlet extension

MS Series
Professional Grade Power Inverters

PW Series
Professional Grade Power Inverter

Design Features

- Best AC efficiency
- Complete quality installation kits
- 200% peak capacity
- 100% continuous output power
- 100% surge capacity
- Best battery protection and safety

BONUS: Extend your reach and and Receive a 10% discount on additional **TH-EXT**

THOR KITS are highly recommended for all mobile applications to ensure superior safety and efficiency. THOR offers kits in wattages ranging from 400 Watts to 5000 Watts. See reverse side for details on kit models.

MS Series
Professional Grade Power Inverters

MS series, modified sine wave inverters are perfect for providing mobile power for tools such as hammer drills, corded drills, bench saws, hand saws, work lights.

30 Amps of Power

- 3000 Watt modified sine wave power inverter
- 15 Feet of 3/0 cable (15' positive and 15' negative)
- 300 Amp fuse and fuse block
- 500 Amp battery isolator
- Inverter bypass switch for ignition controlled and TH002 remote for manual On/ Off
- TH-EXT, 15' electrical power extension cord with weather proof duplex receptacle

50 Amps of Power

- 5000 Watt modified sine wave power inverter
- 15 Feet of 4/0 cable (15' positive and 15' negative)
- 400 Amp fuse and fuse block
- 500 Amp battery isolator
- Inverter bypass switch for ignition controlled and TH002 remote for manual On/ Off
- TH-EXT, 15' electrical power extension cord with weather proof duplex receptacle

PW Series
Professional Grade Power Inverter

PW series, pure sine wave inverters are perfect for powering your sensitive electronics such as laser printers, photocopiers, high end battery chargers for cordless tools and medical equipment.

30 Amps of Power

- 3000 Watt pure sine wave power inverter
- 15 Feet of 3/0 Cable (15' Positive and 15' Negative)
- 300 Amp fuse and fuse block
- 500 Amp battery isolator
- Inverter bypass switch for Ignition controlled and TH002 remote for manual On/ Off
- TH-EXT, 15' electrical power extension cord with weather proof duplex receptacle

50 Amps of Power

- 5000 Watt pure sine wave power inverter
- 15 Feet of 4/0 cable (15' positive and 15' Negative)
- 400 Amp fuse and fuse block
- 500 Amp Battery Isolator
- Inverter bypass switch for ignition controlled and TH002 remote for manual On/ Off
- TH-EXT, 15' electrical power extension cord with weather proof duplex receptacle

Protect your vehicle's electrical system with THOR's inline fuses **THFBANL**

Power your hand tools, power tools, laptop or other electronics with **THOR THMS OR THPW series power inverters**

Extend your reach with THOR's **TH-EXT**

Protect your batteries and vehicle electrical equipment with THOR's isolators **THI-200/ 500**

Turn your inverter on/off remotely either from your truck cabin, bucket lift or truck bed with the **THOR TH002 Remote**

Automatically connect to shore power when plugged in with the **THS Transfer Switch**

Charge your accessory battery or up to three battery banks with **THOR'S THC Series battery Chargers**
